

**Città delle Donne**  
Napoli - Città della Scienza , 8-12 marzo 2006

UNTITLED - CIBACHROME ON ALUMINIUM - CM 100 X 150 (EACH)

**«Does art have a gender? Art doesn't, but artists do» (A.M. Boetti, 1975)**

*Raffaella Nappo takes photographs in natural light and investigates the body as a “material” thing and as an element that, by occupying space, gives form and details that are pushed to the limits of physical and tactile qualities. The body therefore becomes and “performance field” whose intimacy is almost violated.*
